

Fighting for Product Safety

KIDS IN
DANGER

In 1998, 16 month old Danny Keysar died at his child care home when an unsafe **portable crib** collapsed around his neck. The crib had been **recalled 5 years prior**.

DANNY'S STORY

Due to the dangerous design and lackluster recall, 19 children died in total from the design.

Danny's parents made it their **mission** to protect other families and hold manufacturers and regulators accountable. They founded **Kids In Danger** (KID) in 1998.

KID'S MISSION: SAVING LIVES

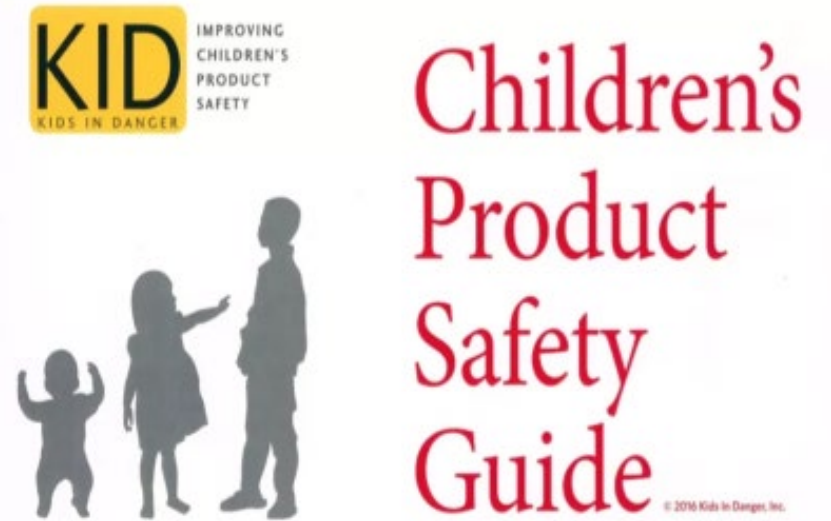

KID is a nonprofit organization dedicated to protecting children by fighting for product safety.

Our mission is to save lives by enhancing transparency and accountability through safer product development, better education and stronger advocacy for children.

RESOURCES:

At KidsInDanger.org every parent and caregiver has access to life-saving child safety resources including:

- Children's product safety guide
- Safe sleep checklist
- Recall digest
- Webinars and safety workshops
- Recall email alerts

	How to use this guide
Baby Toddler Child	Recall Resources
Baby	Safe Sleep Guidelines
Baby Toddler	Choking and Ingestion Hazards
Baby Toddler Child	Tip-Over Prevention
Baby Toddler Child	Buy/Sell Safety Checklist
Baby Toddler Child	Emerging Hazards
